

The upcoming Schedule for 2017 year Borough Yard Waste Pickups is as follows:

Monday - Thursday, April 3 - 6, 2017

Tuesday - Friday, May 30 - June 2, 2017

Monday - Thursday, July 24 - 27, 2017

Monday - Thursday, September 18 - 21, 2017

Residents should place their yard wastes at curbside on the same day of the week as their regular recycling pickup during the above dates only. Branches and limbs must be cut into manageable lengths (no more than 4 ft.), tied or bundled and stacked as best possible, alongside the road in front of your residence but not on the road pavement.

Borough residents may also continue to bring yard wastes to the Twin Borough Recycling Center off Lincoln Avenue during regular Center hours. The yard waste program is for Borough residents and property owners only. Anyone bringing in yard wastes from outside the Borough will be prosecuted for violation of Borough ordinance requirements.

Please remember that the Borough garbage contractor, Waste Management of PA, Inc.), is not responsible for picking up branches, limbs, and other “woody” yard waste materials under their refuse contract with the Borough.

Borough residents may also pick up at the Recycling Center, free of charge, mulch that is produced from the ground-up yard wastes (depending on availability). Please be advised, however, that you have to shovel and load your own mulch!
